A brief introduction of School of Insurance, SWUFE

Situated in the beautiful city of Chengdu, P. R. China, Southwestern University of Finance and Economics was established as Sichuan Institute of Finance and Economics in 1952, when the colleges and departments of business and economics from 17 universities were restructured. More than half century of development, especially the intensified efforts since 1995 within the “211” Project (A project of key universities and colleges in the 21st century by the Ministry of Education, P.R. China) frameworks, has greatly enhanced the University’s administrative and academic resources. The University boasts a strong faculty of scholarly excellence and professional dedication. SWUFE has established a broad and comprehensive teaching & research system, including majors in Economics, Management, Law, Art & Science and Engineering. We have four National Key Subjects, namely, Finance, Political Economics, Accounting and Statistics. In addition, since we have the largest number of alumni working in the Financial and Insurance industry, SWUFE is also recognized as “the Repository of Chinese Experts of Finance and Insurance”.

Founded in 1997, the School of Insurance of SWUFE has become a specialized insurance school of the largest scale and the most comprehensive education level in the whole country. We have cultivated more than 3,000 graduates of all levels and also provided continuing education and training for more than 20,000 people from the management of insurance companies and insurance regulation agencies. We offer Bachelor’s programs in Insurance (including Risk Management), Labor and Social Security (including Occupational Pension Plan) and two bilingual programs majoring in Actuarial Science and Insurance Accounting, respectively. For graduate education, we have Master programs in Insurance and Social Security as well as Ph.D. programs in Insurance and Social Insurance & Economic Security. In addition to our excellent education performance, we also actively take part in research and social service. We—_co-established International Academic Interaction Center of Insurance with Mitsui Sumitomo Insurance (Japan), The Chinese Insurance Accountant Training Center² with Aviva (UK) and The Chinese Agriculture Insurance and Rural Insurance Research Center with Groupama (France), among others.
