Work experience 1996 – 2004 Marsh USA Inc. Chicago, IL

Highlighted Roles:

Consulting Practice Leader

- Develop and manage a consulting practice that helps clients build an information management infrastructure that supports their risk management objectives.

STARS Regional Manager, Northeast

New York, NY

- Manage the implementation and ongoing support of large-scale RMIS systems for multinational corporations. Implementations include: defining of system objectives; coordinating system design; conversion of internal and external data sources; integration of STARS with financial, human resource and other third party systems; installation; training; contract negotiation; and on-going client support.
- Rebuild the team's service capabilities as part of the organization's disaster recovery effort.

Manager, STARS Europe

London, UK

- Manage the implementation and ongoing support of large-scale RMIS systems for multinational corporations.
- Develop pan-European service capabilities to sustain 75% annual growth rate: During the three-year assignment, the operation grew from 4 resources and \$550,000 in revenue to 22 staff members in four countries supporting in excess of \$3 million in revenue.

Manager, STARS Information Center

Chicago, IL

- Manage a conversion team responsible for large-scale data integration projects.

Develop and implement programs to convert data formats, enhance data quality and integrate large databases into Marsh's proprietary information system to support client analysis.

1994 – 1996

Alexander & Alexander

Minneapolis, MN

Financial Analyst

- Analyze risk data to support risk management programs (e.g. loss forecasts, reserve analysis, cost allocation, global data acquisition, data audits, and information system design).

Develop and implement a risk management information system to support the administration and analysis of professional liability claims.
