Statement of Goals for Office

I am honored to be nominated as an ARIA board member candidate. My volunteer activities for ARIA in the past nine years include working with seven ARIA’s committees and serving in the *Journal of Risk and Insurance* editorial board. I look forward to the opportunity to help improve ARIA’s development based on my experiences from my previous services.

If elected, I promise to serve the ARIA members to the best of my ability. I would aim to continue the excellent work done by the prior and current board members. In addition, I would like to improve ARIA meeting experience. Furthermore, I would try to help increase membership for ARIA and enhance the relationship of ARIA with other risk management and insurance and actuarial organizations. I would also try to further develop the linkage between ARIA academic and industry members to discuss and collaborate to resolve challenging risk-related issues.
