

## Call for Strickler Innovation in Instruction Award Submissions Due April 15, 2023

ARIA members and others interested in risk management and insurance education are invited to submit proposals detailing innovations that they have developed and used in risk management and insurance instruction.

Proposals can include any effective, creative approach used in teaching risk management and insurance. For example, creative ideas might include new course offerings, alternative methods of evaluation, experiential projects inside or outside the classroom, lecture-based innovations, and development of case materials, class projects, or other unique teaching materials. For a list of previous award winners that have recently published, please see <https://www.aria.org/strickler-award>.

All proposals will be evaluated based on innovation, student engagement, external stakeholder engagement (where applicable), the relevance and timeliness of the material to risk management and insurance education, the potential of the submission to improve RMI education more broadly and the ability or ease for ARIA members to adopt the innovation within their programs. Proposals that have high potential for improving RMI education broadly not only have high education value but can be applied across different levels of study (undergraduate, graduate and doctoral), across a wide range of courses and are not limited to one jurisdiction.

Proposals that rely upon a publication or other commercial product should attach documentation from the holder of that copyright or trademark providing written agreement to having the product transferred in the manner described in the proposal. If obtained from a website, please provide website address confirming availability for public use.

A monetary award of \$1,000 is associated with the Strickler Award and will be presented at the 2023 Annual Meeting. Persons submitting proposals agree that if selected as the winner, they will attend the in-person meeting in Washington, DC August 6 - 9, 2023, to present their innovative idea in a special session.

Proposals are due **April 15, 2023**, and will be judged by the Les B. Strickler Awards Committee. Proposals should include a cover letter that identifies the submitter's name, address, daytime phone number, and employer-affiliation of corresponding submitter. The remaining documentation should in no way identify the author(s) of the proposal. The proposal should highlight the purpose of the innovation and a description of the course in which the innovation has been used. The proposals themselves will be evaluated using the rubric presented at the end of this call. As such, proposals that address all the criteria in the rubric will be evaluated more favorably. External letters or evaluations attesting to any of the required attributes / criteria may also be submitted.

Submit all materials for review as a single e-mail attachment to the Strickler Committee chair, Mary Kelly: [mkelly@wlu.ca](mailto:mkelly@wlu.ca). Hard copies will not be accepted.

Good luck and we look forward to hearing from you!
